We do not strive to be the world's largest timepiece manufacturer.
Been there, done that. Ages ago.
Instead, we'd be happy if you consider us the most credible, personal, and likeable.

Short-lived and trendy target groups are not our focus.
Nor are posh lifestyles.
We make watches for people who love watches.

Unique timepieces. With a signature design. And innovative technology.
Our inventions have set many standards in watchmaking today.
It takes the experience of a million timepieces to create continual innovation.

Our ideas for the future have always been based on tradition since 1861.
Junghans timepieces are highly valuable for enthusiasts. And affordable for many.
If desired, also passionately customised.

It's not just about having the best watch.
It's about having the best life with it.
Who loves such an idea?
We do.

In over 100 countries around the globe, people are proud to wear Junghans.
Most likely because you can feel that our products have a distinctive home.
A little town in the Black Forest: Schramberg.

Junghans. The Future of Tradition. Germany 1861.

“Wristwatches are barbaric.” Life-long learning at Junghans – since 1900.

Companies that have been setting international standards to date have their roots in the Black Forest. And so, too, does Junghans. Founded in 1861 by Erhard Junghans, the company quickly grew – becoming the world’s largest timepiece manufacturer in 1903.

In the first decade, we mainly concentrated on alarm, pocket and wall clocks. An advertisement from that era is a testament to how we described the trendy new wristwatches as “barbaric”. But we learnt quickly. And eventually, Junghans products became the epitome of the “good German wristwatch”.

Junghans has always had an international mindset. From Schramberg in the Black Forest out into the world. Offices and holdings spanning the globe – from Buenos Aires to Milan, from Venice to Paris – are part of our history. The U.S. Patent and Trademark Office confirmed the registered protection of our logo back in 1910.

This was followed by many additional US registered trademarks, such as for the eight-point star and our NOBRK brand. The English acronym stands for “non-breakable”. A reference to the timepiece’s unbreakable pinion.

In 1961, the year of our 100-year anniversary, 6,000 people were employed with Junghans. Working with an unbelievable 10,000 precision machines, we manufactured 100,000 timepieces of all kind every week. The products were exported worldwide to over 100 countries.

But we never intended to manufacture watches en masse – we want to contribute to shaping the fascinating topic of timepieces. Whether classic masterpieces or innovations such as solar-powered movements and the revolutionary radio-controlled watch. “The Future of Tradition” is a motivation and a guiding principle for both Junghans and the company-owning family.

Our path to the best quality? Short distances. Roughly 35 metres between Engineering and Production.

For a timepiece to function, it requires more than just a movement, dial, hands and case. It needs passionate people who work together. Like in the manufacturing halls at Junghans. The realization of a timepiece is only possible when we work together on site. Designers and engineers. Precision mechanics and quality assurance testers.

Each timepiece created in Schramberg starts with a pencil line. To assemble the timepieces, we not only need special tools but also cleanrooms. Thanks to excess pressure, the components remain free of dust. Which is important, considering some screws are not much larger than a grain of sand.

To ensure purified air, a laminar airflow is circulated through filter systems during manufacturing. Working stations are earthed to prevent tools and individual components from becoming electrostatically charged. In addition to their work apron, the watchmakers also wear finger stalls and cleanroom hoods. All of this preparation is performed with a single goal in mind: the perfect precision of your Junghans timepiece.

Let there be light.
For everyone.

People work better when they feel a sense of well-being – for instance, at a sunlit workbench. Which is why every watchmaker would naturally prefer to have a space at the window. Not possible? But it is. There is a reason why our terrace building from 1918 is a significant architectural legend today. And a museum that reminds us of why good working conditions continue to be an absolute must at Junghans to this day.

Watches? Yes, we scan.

Does a watch catch your fancy? Thanks to the QR codes on selected pages, you can discover even more design models and select your personal favourites.

How you can find your Junghans timepiece:

- 1. Scan the QR codes in the catalogue with your smartphone or tablet.**
- 2. Easily select your favourite timepiece.**
- 3. Instantly order it or find a dealer near you.**

Experience the full diversity of Junghans watches via your smartphone.

The Junghans Pilot is called Pilot because it has been engineered for pilots. It is as easy as that.

With the Imperial German Army Air Service, in the legendary Zeppelin airships and as the first service watch of the German Airforce: our timepieces feature the name Pilot because they have been engineered for pilots for more than 100 years. State-of-the-art technology under the most demanding aviation conditions.

Over 100 years of
aviation experience
embedded in one watch.

Pilot Chronoscope

You notice our fascination for aviation in each detail of the Pilot. The dial with its large numerals and luminous substance is reminiscent of genuine cockpit instruments.

Pilot Chronoscope

27/3493.00

The polished case lends the timepiece a touch of elegance.

Pilot Chronoscope

27/3492.00

Historical design, traditional colour – it does not get more vintage than this.

Deep sea or desert – where will your next area of operations be?

Wherever you go, you can rely on the precise functioning of our Pilot. The good grip of the bezel allows short-term measuring with just a single turn – down to the minute. In the event that you want to know your flight time exactly.

27/3398.00

Luminated time display

Enlightening dial and hands.

Whether day or night – the easy-to-read dial of the Pilot provides all-important clarity. This is made possible by the luminescent hands and numerals, as well as the double-sided, anti-reflective sapphire crystal glass.

27/4490.00

Pilot Automatic

A timepiece with a cockpit character. The design of the optimised date display has been inspired by historical aeroplanes, which Junghans equipped with on-board clocks in the middle of the last century.

27/4397.00

27/4490.00

27/3380.02

Telemeter

A tachymeter and a telemeter in a single chronograph – the latest edition of the timepiece first unveiled in 1951 looks nothing less than historical, and is yet highly modern.

Technology

Self-winding movement J880.3, power reserve of up to 42 hours

Case

Stainless steel, diameter of 40.8 mm, height of 12.6 mm, 4-times screwed glass case back

Dial

Matt silver-plated, luminescent numerals and hands

Glass

Anti-reflective and domed sapphire crystal

Functions

Stop function, telemeter, tachymeter

Strap

Leather strap, stainless steel buckle

Water resistance

5 bar

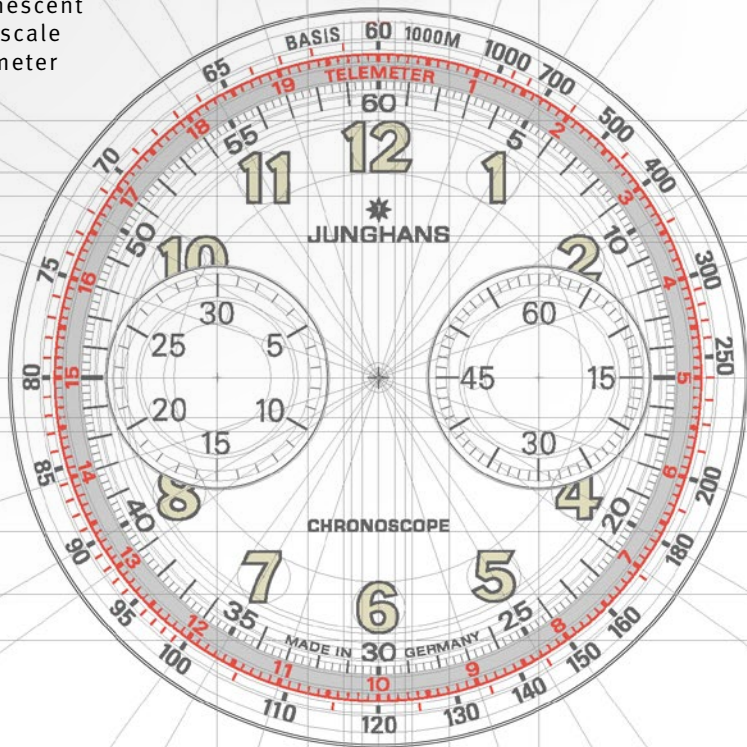

Everyone can give the time.
The Telemeter can also
give the distance.

Sometimes it is essential to be able to estimate distance based on light and sound. Take, for instance, when lightning strikes: you can measure the time until the thunder sets in.

Measures time and space in green and blue.

Classic vintage in modern colours. Limited to just 150 pieces each; the luminescent numerals and grey tachymeter scale with red accents lend the Telemeter unmistakable dynamics.

Limited Edition

Telemeter Edition

27/3587.02

The classic timepiece from the year 1951 also amazes in classic blue. Limited to 150 watches.

Limited Edition

Telemeter Edition

27/5588.02

The elegant model in green features a leather strap with an alligator-leather look. Limited to 150 watches.

Shows the time. And that you
have already gone running today.
Junghans Sport.

In the 1920s, the first stopwatches from Junghans were a precision companion at athletic competitions. Today, the design language is different – but the uncompromising precision and functionality remain the same. The durability and water resistance of the stainless steel case keep pace with you.

1972

Competition

The shape and colour are a clear reference to the design language of the 1970s. The contrast of the dial and the ellipsoidal case create extraordinary dynamics. Limited to 1,972 watches – a true collection piece.

27/4203.00

Technology
Self-winding movement
J880.5, power reserve of
up to 48 hours

stainless steel folding clasp

**Water
resistance**
10 bar

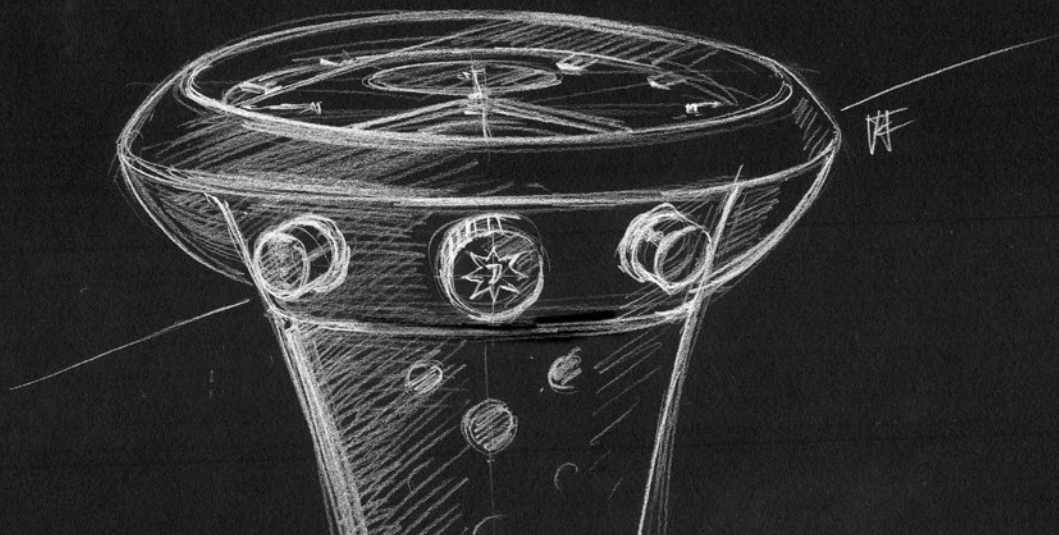

The 70s called. They would like to have their watch back. Junghans Sport 1972.

Munich, 1972. We call it the "honest time". When we enabled sports times during athletic competitions to be precisely measured down to the thousandth of a second – for the first time ever. And even with a photo finish. This marked the start of a new era in sports timekeeping.

Not everything is black or white. But these are.

Life is not just full of contrasts – it is also a lot of fun to deck yourself out with them. The 1972 Competition exudes uncompromising elegance: deep black with grey accents, or brilliant white with fine matt nuances. Rounded off with perfectly matching leather straps.

New

1972 Competition

27/4504.00

The dark-grey dial with sunray brush and the matt totalisers make for an exciting three-dimensional look.

New

1972 Competition

27/4509.00

Even when it came to winter sports competitions, Junghans was an active time-taker. This snow-white model is a homage to that.

Limited Edition

1972 Chronoscope Sports Edition 2025

41/4577.00

The small second is striking at the 6 o'clock position and underlines the racing character. Limited to 200 watches.

Limited Edition

1972 Chronoscope Sports Edition 2025

41/4578.00

The date is displayed in an unusual position – making it catch the eye even more. Limited to 200 watches.

Keeps pace with you.

Speed meets style. The 1972 Competition Sports Edition relies on fast racing car aesthetics. The matt dial, the double racing stripe and the historical Junghans logo make each model an eye-catcher. Limited to 200 pieces each.

On your marks. Start. Stop.

Measure time like the pros: Whenever you need it, you can rely on the precision of the 1972 Chronoscope Sports Edition.

41/4579.00
Limited to 200 watches

Limited Edition

1972 Chronoscope Sports Edition 2025

With striking contrast – such as the orange-coloured details – and sporty leather straps, this watch is speed directly on your wrist. The large number six is a nod to the style of the starting numbers of classic racing cars.

Mega Solar. Let's head outside and enjoy the sun!

Everyone is talking about solar energy. So are we – even for the wrist. This legendary, high-precision and multi-frequency radio-controlled watch crafted by our own watchmakers not only withstands 10 bar of water – it also has a practical bezel with a 15-minute marker. And it wants to go out into the sun with you.

1972
Mega Solar
56/4210.00

The indented quarter appliqués create a three-dimensional appearance.

1972
Mega Solar
56/4211.44

After 72 hours without light, the energy-saving mode is activated.

The experience from millions of timepieces – in just 300 of the FIS Edition.

The exclusive Special Edition for the Nordic World Ski Championships. From Junghans, the Official Timing Partner. A must-have for every winter sports fan. The Trondheim design keeps the memory of enthralling competitions alive.

Mega 1000

26/4800.25

Black beauty: the stainless steel case features a black PVD coating. Limited to 120 watches.

The 90s are back.
And have brought
along a solar-powered
watch.

The sun, moon and Junghans star adorn this advertisement from 1995. The original TV commercial for the Stratos centred on the year 3001 and can still be seen today on YouTube.

18/1116.44
Limited to 100 watches

Limited Edition

Stratos Mega Solar

The first radio-controlled watch was followed by the next milestone in 1995: our radio-controlled solar-powered watch featuring a ceramic case. The Junghans Stratos Mega Solar was a bestseller for many years. The legendary radio-controlled classic timepiece is still highly sought-after today.

Technology

Radio-controlled solar-powered movement J615.82 (EU)

Case

Ceramic, diameter of 39 mm, height of 10 mm

Dial

Glass solar dial, luminescent hands

Glass

Sapphire crystal

Functions

Dark power reserve of up to 21 months, sleep mode after 72 hours

Strap

Ceramic bracelet with titanium folding clasp

Water resistance

3 bar

Junghans Performance. Ready when you are.

What would you not do for the best performance?
Ceramic and stainless steel for the highest durability.
The newest radio-control and solar technology for reliable
functionality. An ergonomic design for the best wearing
comfort. These watches are made for your daily business.

Solar, so good.

18/1133.44

Force Mega Solar

The Force Mega Solar combines radio-control and solar technology with good design that provides wearing comfort and scratch-resistance. Because radio-controlled watches ensure the most precise time today, you can rely on this timekeeper in all situations.

Technology

Multi-frequency, radio-controlled solar-powered movement J615.84 (EU, JP, USA), dark power reserve of up to 21 months, time-setting via the Junghans app

Functions

Large date display, perpetual calendar, sleep mode after 72 hours

Strap

Ceramic bracelet with titanium folding clasp

Case

Ceramic, diameter of 40.4 mm, height of 8.2 mm

Dial

Glass dial, luminescent hands

Water resistance

5 bar

Glass

Flat sapphire crystal

Force Mega Solar

18/1401.00

The synthetic rubber strap comfortably wraps around the wrist.

New

Spektrum Mega Solar

18/1527.00

The robust mix of material and the water resistance of 10 bar make this our sportiest radio-controlled watch.

Black solar dial

Literally attracts the sun's energy.

When it comes to radio-control and solar technology, Jungthans has done pioneering work. For timepieces which are both precise as well as resource-friendly.

18/1425.44

Spektrum Ladies

The Spektrum Ladies combines elegance and ease with the innovative technology of the multi-frequency, radio-controlled solar-powered movement. For women who value style and precision.

15/1500.44

Technology

Multi-frequency, radio-controlled solar-powered movement J615.74 (EU, JP, USA), dark power reserve of up to 21 months, time-setting via the Junghans app

Case

Stainless steel or PVD-coated with ceramic bezel, diameter of 35.6 mm, height of 8.9 mm

Dial

Solar dial with mother-of-pearl, luminescent hands

Glass

Flat sapphire crystal

Functions

Date, perpetual calendar, sleep mode after 72 hours

Strap

Stainless steel / ceramic bracelet with folding clasp, or synthetic rubber strap with PVD-coated buckle

Water resistance

10 bar

16 diamonds

Are you looking for under-statement? Turn the page.

Sixteen diamonds. Mother-of-pearl solar dial. A case coloured in gold. With the Spektrum Ladies, Junghans is showing another side of itself.

15/1506.00

89

Solar-powered movement

The advantage is as clear
as daylight: unlimited power.

56/4220.00

Thanks to the solar cells in the dial, the Milano Mega Solar gets its power solely and infinitely from the sun. The glass solar dial is crafted during manufacture in our grinding shop and in our printing facilities using numerous working steps.

Milano Mega Solar

56/4628-44

A perfect companion: clear design,
radio-controlled precision,
solar-powered movement.

Milano Solar

14/4061-44

The glass solar cell features
the hours markings which have
been finely applied.

Minimalistic or functional.
Why “or”?
Junghans FORM.

There is hardly any other watch that offers an extreme reduction in design simultaneously with innovative features. From the beautiful women's models to sporty, modern chronographs featuring a mechanical movement. When it comes to this watch, you do not have to choose between design and innovation.

Form
follows
fun.

27/4730.00

FORM A Automatic

The minimalistic Form A follows the guiding principle of German industrial design. Within the comfortably flat case, the concave dial amazes with its eye-catching three-dimensional design.

27/4731.00

Technology

Self-winding movement
J800.2, power reserve
of up to 38 hours

Case

Stainless steel, diameter of
39.3 mm, height of 9.5 mm,
screwed glass case back
with tinted mineral glass

Dial

Matt silver-plated,
luminescent hands

Glass

Flat sapphire crystal

Function

Date

Strap

Leather strap,
stainless steel buckle

Water resistance

5 bar

27/4371.00 DE
27/4371.01 EN

27/4372.00 DE
27/4372.01 EN

The urban colours of the FORM A Chronoscope are reminiscent of The City That Never Sleeps. The colour scheme on the case back perfectly matches the dial hands and strap.

27/4370.00 DE
27/4370.01 EN

Adaptable motif print

Times Square, but round.

FORM A Chronoscope

27/4370.00 DE
27/4370.01 EN

The mechanical chronograph
is available with English
or German date.

FORM A Titan

27/2000.00

Functional without compromise:
titanium case, 10-bar water
resistance, textile strap.

FORM C

A high-quality quartz movement is what makes the FORM C Chronograph tick. Thanks to a water resistance of 5 bar and the robust sapphire crystal glass, the watch also stands up to every demanding condition.

Technology
Quartz movement J645.85

Case
Stainless steel, diameter of 40.0 mm, height of 10.5 mm, screwed case back

Dial
Matt silver-plated, luminescent hands

Glass
Flat sapphire crystal

Functions
Stop function, small second

Strap
Leather strap, stainless steel buckle

Water resistance
5 bar

Multifaceted entry-level watch

Robust,
sporty and
functional.

The entry-level
watch for going
to the next level.

Junghans FORM C offers many functions at an affordable price. Perfect for watch newcomers.

New

FORM

Ladies

Colour in good form: colourful seams and contrasting edges are stylistic details of the small FORM Ladies, featuring a 34 mm diameter.

Technology
Quartz movement J645

Case
Stainless steel, diameter of 34.1 mm, height of 7.0 mm, screwed case back

Dial
White matt, hands with coloured inlay

Glass
Flat sapphire crystal

Function
Date

Strap
Leather strap with textile lining, stainless steel buckle

Water resistance
5 bar

New

FORM

Quarz

41/4481.00

The watch amazes with its 39.9 mm diameter and casual look.

New

FORM

Quarz

41/4480.00

The clear design and material mix take street style to the wrist.

Bowl-shaped dial

Nearly three-dimensional-ish.

47/4455.00

FORM Ladies

47/4457.44

Timelessness meets functionality
with the model featuring
a Milanaise bracelet.

FORM Ladies

47/4456.00

The colour in cool blue
is also found in the
inlay on the hands.

Good design does not impress
everyone, but eventually it does.
Junghans max bill.

Timeless German industrial design. An iconic dial. A student of Bauhaus, Max Bill worked without ornamentations or embellishments. This amazing watch has virtually remained the same for 60 years.

“watches as
far away from
fashion as
possible.”

- Max Bill

This photo shows an original watch from the
sixties. The timeless design can still be found
in the collection models today.

max bill Handaufzug

“watches ... as timeless as possible without
forgetting the time.” Max Bill aimed for a reduction
to the essentials while remaining modern.
Just one example of this are the characteristic,
logically styled dials of these design icons.

Technology

Hand-winding calibre
J805.1, power reserve
of up to 42 hours

Case

Stainless steel, diameter of
34.0 mm, height of 9.0 mm

Dial

Matt silver-plated, luminescent
minute track and hands

Glass

Anti-reflective and domed
sapphire crystal

Strap

Leather strap, stainless
steel buckle

Water resistance

5 bar

27/3700.02 | 27/3701.02

An upside-down chair
made this typography
a signature.

The “4” is reminiscent of a chair turned upside down. Max Bill also designed the other numbers to feature a squared shape.

max bill
Kleine Automatic

27/4105.02

With a diameter of 34 mm,
the watch is the same size
as the original from 1961.

max bill
Automatic

27/4700.02

The watch automatically
takes on the energy
created by the wearer.

max bill

Chronoscope

Bauhaus

Minimalistic design with red accents: the Bauhaus models of the JUNGHANS max bill line honours the red doors of the Bauhaus building. The window of the Bauhaus motif on the case back gives a glimpse into the workings of the mechanical movement within.

27/4303.02

Technology
Self-winding movement J880.2,
power reserve of up to
48 hours

Case
Stainless steel, diameter of
40.0 mm, height of 14.4 mm,
5-times screwed glass case
back with translucent
"Bauhaus" motif

Dial
White matt, luminescent
minute track, hands with
red-coloured inlay

Glass
Anti-reflective and domed
sapphire crystal

Functions
Stop function, date

Strap
Leather strap, stainless
steel buckle

Water resistance
5 bar

We took our time and left out the rest.

A minimalistic design guides the attention to the essentials.
Such as the hands with the coloured inlay in classic Bauhaus red.

max bill Automatic Bauhaus
27/4308.02

Stainless steel Milanese bracelet

A great touch: our strap in a Milanese design.

With its finely woven wires of stainless steel, the Milanese bracelet combines timeless aesthetics with the highest wearing comfort.

max bill Chronoscope

27/4003.46

The mechanical chronoscope with a 40 mm diameter also features the typography created by Max Bill.

max bill Chronoscope

27/4600.02

The model with the fine line dial amazes with its puristic form and beautiful symmetry.

Division of time

For those who look at time differently.

Seconds, minutes and
hours radically sepa-
rated across different
displays. True to the
Max Bill style.

max bill Regulator

27/4492.46

This mechanical watch is a
statement of clarity across
a diameter of 40 mm.

max bill MEGA Solar

59/2022.46

High-tech for the wrist.
With titanium, radio-control technology
and solar-powered energy.

max bill

Quarz

The classic design timepiece is also available with a high-quality quartz movement. Always ready to go, the puristic timekeeper is a reliable companion.

41/4461.02

47/4251.02

The simplest solution is
often the best.
Starting with the wrist.

47/4450.02

47/7452.46

Quick Release strap

Nice strap.
Why choose
just one?

The straps with Quick Release allow you to quickly and easily change the strap – to always have the perfect accessory for any outfit.

max bill
Ladies

47/7854.02

Matching the strap,
the dial features
a soft touch of grey.

max bill
Ladies

47/7853.02

With an even more puristic
design, the model features
a dial without numbers.

Fresh colours

Colourful to the max.

Puristic design meets gentle colour blocking.
The fresh look carries the joy of spring
colours through the entire year.

47/4554.02

New

max bill
Ladies

47/4555.02

A high-quality quartz
movement ticks within
the 32.7 mm case.

New

max bill
Ladies

47/4553.02

The dark-blue leather strap
lends the sunny yellow watch
an elegant look.

New

max bill
Ladies

47/4557.02

The puristic case draws the focus to the essentials: the time.

New

max bill
Ladies

47/4556.02

The luminescent dots and hands make for easy reading of the time even on autumn days.

Fresh colours

Minimalism with maximum colour.

The colour of the hour figures and the date printing perfectly match the strap. The numbered dial features the typography created by Max Bill for Junghans.

47/4558.02

JUNGTHANS

max bill table
and wall clocks

Your personal
space-time continuum.

Time is relative, Albert Einstein once said. We think time can also be relatively beautiful. For example with a max bill table or wall clock – at home or in the office. The classic design is based on the original drafts by Max Bill from 1958. Minimalistic time for any room.

max bill Wall Clock

367/6046.00 Ø 30 cm

The wall clocks are available
in the diameters 22 cm and 30 cm.

max bill Wall Clock

367/6047.00 Ø 30 cm

The diamond-polished aluminium
case frames the puristic dial.

max bill Table Clock

382/2200.00 RC

The home accessory featuring
an extraordinary design
enhances any room.

max bill Table Clock

383/2202.00 RC

Choose from two technologies:
a radio-controlled or a
quartz movement.

2025/2026 issue

This catalogue presents our latest collection. Additional models are available at a Junghans dealer near you, who is also happy to provide specialist consultation. To ensure the best visibility, the watches have been displayed either enlarged or reduced in size on some pages. Sales and delivery options, model and collection changes, technical modifications and errors are excepted.
